March 2021

Dear Sir Knights and Ladies,

This past Sunday, all Knights should have received an email from our Immediate Former Supreme Knight Carl Anderson. In this letter he mentions the impact the Knights have made in respect to the growth of the Knights within Europe, the labor and financial aid the Knights have provided to our local communities that were ravaged natural disasters, and the assistance the Knights have provided Christians that were persecuted in the Middle East during his tenure. We as leaders within our Assembly, District and Province should be asking ourselves "have we made a difference within our community"? Hopefully the answer is yes. If the answer is no, then we should gather the troops together, identify a project and make that difference to make people aware that the Knights are here to make a difference to better our community. It is never too late to do so.

The election of Assembly Officers during the month of May is just around the corner. Consider asking a new member in taking a position as Sentinel, Trustee or even Scribe. This is a great way to get the new members actively involved in the Assembly's operations and grooming him as a future Navigator. We all need to mentor the new members to ensure the longevity of our Assemblies.

The traditional Provincial Weekend Meeting for 2021 will unfortunately not be held this year based on responses received from your District Master's polls and feedback received from their Assemblies. The new Vice Supreme Master, who will assume my position on September 1st, will need to schedule a meeting with the seven District Masters to discuss Provincial policies and goals, Navigator, Comptroller and Color Corps training, and of course membership growth during the month of either September or October. I held a similar meeting in the Fall of 2020 as a result of the pandemic and unable to meet in person.

Spring is around the corner and the third supplier for the COVID-19 vaccine was just approved. Holding our in-person Assembly meeting is within sight. Now is not the time to let our guard down. Please continue to practice the necessary precautions to stay healthy and safe. We are all important to someone.

Fraternally Yours and God Bless,

*Clifford F. Wasmund*

Vice Supreme Master
